

SAURABH RAVINDRA PATIL

DATA ANALYST

Pune, Maharashtra, India | +91 8767633264 | saurabhpatilep@gmail.com

[LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Data Analyst with an MCA in Data Science and hands-on experience in SQL, Python, ETL, data preparation, exploratory analysis, Business Intelligence and reporting. Proficient in Pandas, NumPy, MySQL, Microsoft SQL Server, Excel, Power BI and Tableau. Processed 15,000+ records and cut report generation time by approximately 25% through indexing and query tuning during an internship; built interactive dashboards and predictive models across 10,000+ record datasets in academic projects.

TECHNICAL SKILLS

Languages: Python, SQL

Analytics: Exploratory Data Analysis, Data Cleaning, Data Validation, Statistical Analysis, Feature Engineering

Databases: MySQL, Microsoft SQL Server, Relational Databases, Data Modelling, Database Design, Query Optimisation

Reporting: Power BI, Tableau, Microsoft Excel, KPI Reporting, Dashboard Development, Business Intelligence

Libraries: Pandas, NumPy, Matplotlib, Scikit-learn, TensorFlow

Data & Cloud: ETL, Data Extraction, Transformation, Data Loading, Data Quality, Data Integration, Azure, Generative AI

PROFESSIONAL EXPERIENCE

Data Analyst Intern | India Tech Soft, Pune

Jun 2025 – Aug 2025

- Optimised MySQL and Microsoft SQL Server queries for data extraction, ETL and reporting, improving report generation efficiency by approximately 25% through query tuning and indexing.
- Cleaned, validated and standardised structured datasets using Python, Pandas and NumPy, improving data quality and consistency for analysis and BI reporting.
- Performed data analysis and validation to identify missing values, inconsistencies and data-quality issues, supporting accurate reporting and business insights.
- Supported ETL workflows, KPI reporting and data validation, ensuring reliable datasets and accurate analytical outputs for business reporting

PROJECTS

Sales Data Analysis Dashboard | Python | Pandas | NumPy | SQL | Tableau | Power BI | ETL

- Built an end-to-end ETL pipeline and analysed 10,000+ sales records using Python, Pandas and SQL joins to uncover revenue trends and customer behaviour patterns.
- Designed interactive Power BI and Tableau dashboards with KPI tracking and trend visualisations to support data-driven decision-making.
- Identified process improvements with potential to increase operational efficiency by approximately 15%.

Retail Control Tower | Python | Streamlit | Pandas | Data Quality | [Live Demo](#)

- Built an interactive retail intelligence dashboard in Streamlit to monitor sales, inventory, profitability and operational KPIs.
- Applied data cleaning, validation and reconciliation checks to identify inconsistencies and support reliable insights.
- Designed decision-focused views for trend analysis, exceptions and business performance monitoring.

Retail Analytics Dashboard | HTML | CSS | JavaScript | Chart.js | [Live Demo](#) | [GitHub](#)

- Developed an interactive retail dashboard covering KPI, trend, product, customer, geography, profitability and operations views.
- Implemented filtering, drill-down analysis, anomaly detection, RFM segmentation, cohort retention and forecast views.
- Built data-quality checks for completeness, validity, uniqueness and reconciliation of key metrics.

EDUCATION

MCA – Data Science | MIT ADT University

2024 – 2026 | CGPA 8.0

B.Sc. – Computer Science | MIT ACSC

2021 – 2024 | CGPA 7.9

CERTIFICATIONS

- Statistics for Data Science with Python** — IBM / Coursera [Verify](#)
- Database Structures and Management with MySQL** — Coursera [Verify](#)
- Fundamentals of Visualization with Tableau** — UC Davis / Coursera [Verify](#)

ACHIEVEMENTS & ACTIVITIES

Event Coordinator — Sci-Fari Technical Event, MIT College • Volunteer — Science Week, MIT College • Winner — Kshitij Cricket Tournament
