PROFESSIONAL SUMMARY

MCA graduate with hands-on experience in software development, SQL, Python, and databases, including ETL, data analytics, and reporting. Skilled in building web applications and data-driven dashboards that support business decision-making. Comfortable working across the stack, from backend logic and database design to KPI reporting and visualization.

TECHNICAL SKILLS

Programming: Python, Java, PHP, JavaScript

Web Technologies: HTML, CSS, Bootstrap, REST APIs

Databases: SQL, MySQL

Data Technologies: Pandas, NumPy, ETL, Data Cleaning, Data Preprocessing

Business Intelligence: Power BI, Tableau, Dashboard Development, KPI Reporting, Data Visualization

Core Concepts: OOP, Data Structures, SDLC, CRUD Operations

EXPERIENCE

India Tech Soft, Pune — Software Developer Intern

June 2025 – August 2025

- Worked on SQL-based ETL workflows and reporting.
- Developed and optimized SQL queries using MySQL and Microsoft SQL Server, improving query efficiency by approximately 25%.
- Cleaned and preprocessed 15,000+ structured records using Python, Pandas, and NumPy to support data preparation, analysis, and reporting activities.

PROJECTS

Online Clothing Store | PHP, MySQL, HTML5, CSS3, JavaScript — [GitHub](#)

- Developed a web-based e-commerce application with a responsive frontend and backend functionality for product browsing and order management.
- Integrated MySQL database connectivity to store, retrieve, and manage product and order data efficiently.
- Implemented application workflows using PHP, JavaScript, HTML5, and CSS3 to support core e-commerce functionality.

Sales Analytics Dashboard | Python, Pandas, NumPy, SQL, Power BI — [GitHub](#) | [Live Demo](#)

- Cleaned, transformed, and analyzed sales data using Python, Pandas, NumPy, and SQL for accurate reporting and analysis.
- Developed an interactive Power BI dashboard with KPIs, charts, and visualizations to monitor sales performance.
- Generated data-driven insights by analyzing sales trends, performance metrics, and key business indicators.

Retail Supply Chain & Profitability Intelligence System | Python, SQL, ETL, Power BI — [Live Demo](#)

- Developed ETL workflows using Python and SQL to extract, transform, and process sales, inventory, and profitability data.
- Built interactive Power BI dashboards to track KPIs across sales, inventory, and profitability metrics.
- Analyzed structured business data to identify performance trends and generate actionable insights for reporting and decision-making.

EDUCATION

MCA – Data Science, MIT ADT University

2024 – 2026

CGPA: 8.0

B.Sc. – Computer Science, MIT ACSC

2021 – 2024

CGPA: 7.9

CERTIFICATIONS

- Statistics for Data Science with Python — IBM / Coursera [Verify](#)
- Database Structures and Management with MySQL — Coursera [Verify](#)
- Fundamentals of Visualization with Tableau — UC Davis / Coursera [Verify](#)

ACHIEVEMENTS & ACTIVITIES

Event Coordinator — Sci-Fari Technical Event, MIT College | Volunteer — Science Week, MIT College | Winner — Kshitij Cricket Tournament
